- eQ Plc had 5 451 shareholders on 31 December 2018 (5 048 shareholders on 31 December 2017)

Outlook

We expect that the net revenue and operating profit of the Asset Management segment will grow in 2019. We further estimate that the management fees of real estate and private equity asset management will grow on the previous year. The amount of performance fees is also estimated to grow. We believe that one of the private equity funds managed by eQ will reach the hurdle rate and begin to pay a performance fee during the second half of the year. As a result, we expect the profit of the Asset Management segment to grow clearly more than in 2018. Performance fees are dependent of the market development and, therefore, estimating them at the beginning of the year contains a greater risk.

In accordance with our disclosure policy, we do not issue profit guidance for the Corporate Finance and Investments segments. The results of these segments are highly dependent of factors that are not dependent of the company. Consequently, their operating profits may vary considerably and are difficult to foresee.
